

Dear Hiring Manager,

I am thrilled to apply for the Product Designer position at Ramp. As a recent graduate from Rutgers Mason Gross School of the Arts with a Bachelor of Fine Arts (BFA) in Design, I have developed a solid foundation in visual/interaction design, branding & identity, and typography. I also bring a crucial background in user interface design with a strong knowledge of user experience principles. I am eager to contribute my skills and enthusiasm in support of Ramp's mission to build next-generation finance tools that save businesses time and money.

The opportunity to learn from an exceptional team and work on a ground floor role in a design-driven company is truly exciting. I am motivated to evolve the design process, collaborate with cross-functional partners, and contribute to a diverse team that places users at the center of every design decision.

Throughout my education and experience, I have honed my visual design skills and expertise in product design. Striving for a harmony between functionality and aesthetics is an integral part of my design approach. I value simplicity over sweating the details, and always seek to identify opportunities for potential improvement.

As someone who genuinely advocates for users, I actively explore solutions, create prototypes, and dive into user feedback/data to identify points of friction and opportunities for improvement for every initiative. I am confident in my ability to break down ambiguous problems, and prioritize high-impact work. My passion for understanding and aligning users' needs with business objectives drives my commitment to delivering meaningful and user-centric experiences.

Thank you for considering my application, I have attached my portfolio along with my resume providing further details about my qualifications and past projects. I look forward to discussing how I can contribute to Ramp's vision and success as a member of your design team. Please feel free to contact me at your convenience to schedule a conversation.

Thank you again for your time and consideration.

Sincerely,

Daniel Roswadowsky.
